

Hello fellow mates,

My name is Aaditya Dixit, student of MSc Logistics & Supply Chain Course (2020). I am here to ask you all for your help in becoming a member of the student council so that I can return the favour to you all, tenfold. I have many things that I would like to share with you all but I only got one A4 size page to write.

Just like many of you I am an outsider learning my ways around here, new people, new country. With new beginnings comes new problems and not many are keen on taking on the responsibility of solving these problems. I have the confidence to take on these challenges and coming up with a solution. All I need is a helping hand. I know you all don't know me and many of you might not take this seriously, but there are some things that needs to be changed specifically in times like these where human contact is so limited.

I would like to raise a question, who do we ask fro help if we can't even talk to one another. I know many of you came here with some expectations which are not fulfilled. However, thia is not the end my friends, its just the beginning.

I hope I didn't bored you all. I hope I can count on you all and bring about the changes that will give us freedom to enjoy our life to the fullest.

Your very own,

Aaditya
