

My name is Christopher Serhat Ulus Im the current President of KUPSA (Kingston University Pharmacy Student association) and a course representative for 4th year Pharmacy I was born and raised in Hackney east London a very diverse and multi-cultural area. I like to go to the gym and I always visit my grandad on Sunday evenings for a few games of backgammon. I regularly work as a waiter at a restaurant serving all kinds of people in my community. I come from a working-class background and from a young age have stood up against injustice for those around me and I believe in protecting those most vulnerable in society.

I'm not the smartest student my grades are usually average but my optimism and will power have never failed me. I pledge to bring real change so that all students afforded the best opportunities that we are all deserving of. I promise to shine a light on to the average person and show that with optimism and will power that we can all do well. During my time as President and course representative I have had experience structuring many meetings and helping make big changes upon feedback received from my peers in all cohorts to raise concerns; working alongside academic staff and the student union. Full of motivation and desire Im eager for change and would like to continue representing friends and family in the student council.

For More Opportunities and Greater Success vote Christopher S Ulus for Student council!
