**Why ME?**

Having worked at the university for 3 years in a student facing capacity, I have developed a strong understanding of our student demographic and needs. Further, I have a strong awareness and understanding of strategic decision making and overall business objectives. Being a student myself, I understand the frustrations and disproportionate inequality of academic experiences. I am also a well-respected member among staff and student peers and my opinion is highly valued. I'm known for being trustworthy, diligent, strong sense of integrity coupled with a strong passion for helping students.
